Since yesterday night I've been having serious stomach ache. I took an antetic last night but the pain was still the same. Hmm. Any other symptoms? Yeah I also had bouts of vomiting last night and today morning as well. Do you have a headache? No. Did you have this kind of stomach ache before? Yes doctor. I had it once before. How many days ago? Almost three months ago but at that time the pain stopped after I took an antetic. Hmm. Please lie on that bed I have to check. Okay doctor. Does it hurt here? Yes doctor it hurts a lot. Okay you can get it now. Is it something serious doctor? I can't say now I'm writing down some tests. Try to do this by today. But what about now? I can't even work properly because of the pain. Hmm. I understand.

I'm giving you an injection for temporary relief. Injection. Do you have any medicine? Why? Are you scared of injections? It's not like that. I mean it would be better if you could give me some medicine. Nothing will happen. You won't even feel it. Look at that side. Please doctor be careful. You can open your eyes now. It's already done.
